

SUMMARY OF INTERVIEW

Applicants appreciate the courtesies extended to Applicants' representative during the telephonic interview conducted on April 7, 2008. The participants in the interview were Katherine Gaudry, the undersigned and the Examiner. Applicants proposed amendments in response to the claim objections and non-statutory subject matter rejections, and the Examiner indicated that such amendments would likely overcome those objections and rejections. The participants then discussed the indefiniteness rejection, which was according to the Examiner, predicated on that the claims do not state what action occurs if a particular condition is not present. In particular, the Examiner objected to the use of the word "when" in the claims. Applicants proposed claim amendments that included the use of the phrase "subsequent to" and removed the word "when." The Examiner indicated that such amendments would be a step in the right direction, though a final analysis would be conducted once the filed response was received.
